If successful the installation will start after download.

If the file was saved but the installer did not start, open File Explorer and open the
"syncml_pro_en" file to start the installation.

Choose the location to install the program and select "Install"

Once installed the program can be found under Start -> Programs

Configuration Instructions

First ensure you are connected to the internet.

Open the Syncml program. (Should be installed under Start -> Programs)

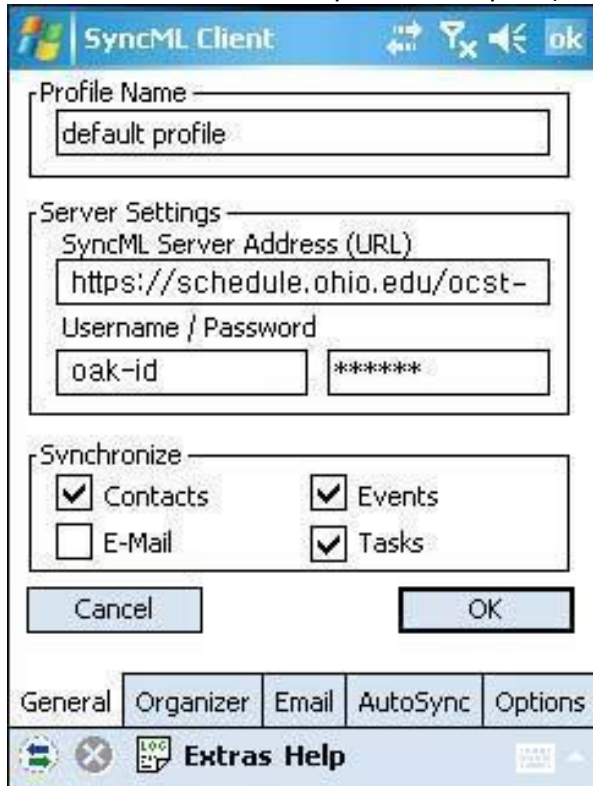

Choose Extras, and then choose Profile Settings

On the General Tab,

For "SyncML Server Address (URL)" enter "**https://schedule.ohio.edu/ocst-bin/ocas.fcgi**"

Enter your oakid username and password in the appropriate boxes.

Check the items you wish to sync. (Contacts, Events, Tasks)

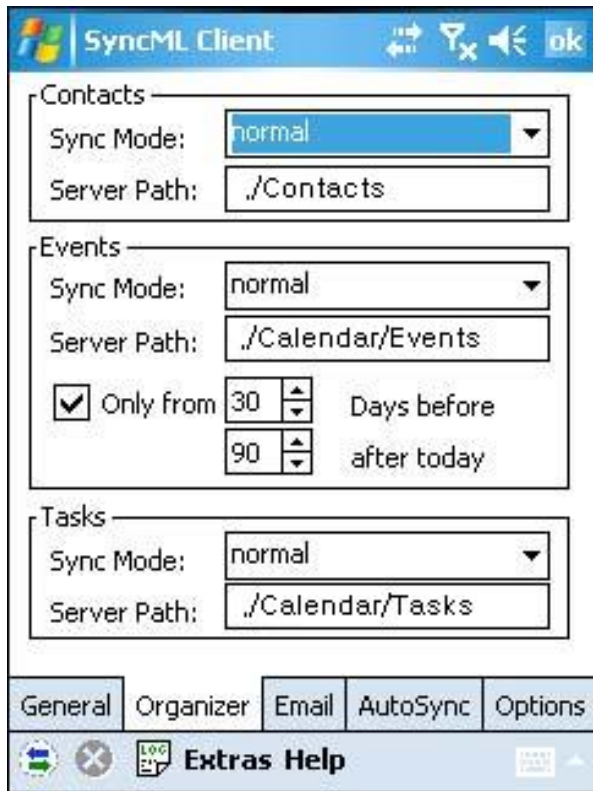

The screenshot shows the 'SyncML Client' dialog box with the 'General' tab selected. The 'Profile Name' field contains 'default profile'. The 'Server Settings' section includes the 'SyncML Server Address (URL)' field with 'https://schedule.ohio.edu/ocst-', the 'Username / Password' section with 'oak-id' and '*****'. The 'Synchronize' section has checkboxes for 'Contacts', 'Events', 'E-Mail', and 'Tasks', with 'Contacts', 'Events', and 'Tasks' checked. 'Cancel' and 'OK' buttons are at the bottom. The taskbar shows 'Extras Help' is active.

Choose the organizer tab

For the contact Server path enter "**./Contacts**"

For the Events Server path enter "**./Calendar/Events**"

For the Tasks Server path enter "**./Calendar/Tasks**"

Choose OK, and select the double arrows to start the sync process.
If successful "Completed OK" and a date will appear next to the items successfully synced.
